Occupational exposure limits

Contains no substances subject to reporting requirements.

9. Physical and chemical properties

Appearance: White paste

Odour: None

Solubility: Emulsifiable with water

Relative density (kg/l): 1,7

pH: 7,9-9,2

Org. solvents (weight%): 0

Water (weight%): < 30

10. Stability and reactivity

Stable at normal handling. At high temperatures health-endangering decomposition products such as carbonmonooxide and carbondioxide may occur.

11. Toxicological information**Acute****Inhalation**

Prolonged use in small, closed rooms may cause malaise.

Ingestion

Ingestion of large quantities may cause temporary malaise.

Skin contact

Prolonged or repeated contact may cause defatting, drying or irritant dermatitis.

Eye contact

Splashes or dust in the eyes may cause irritation and smarting.

Risk of sensitization

Contains Isothiazolinone (CMIT/MIT, CAS-No. 55965-84-9) that may cause allergic reaction in contact with skin.

Long-term effects**12. Ecological information**

The product is not classified as harmful to the environment according to the current legislation. The product should not be allowed to enter drains or watercourses.

Ecotoxicity

Ecotoxic information on the product itself does not exist.

13. Disposal considerations

The product is not dangerous waste. Should be disposed of in accordance with local regulations. Liquid residues of the product is classified as: EWC-code: 08 04 10 Waste adhesives and sealants other than those mentioned in 08 04 09.

14. Transport information

The product is not covered by the rules for transport of dangerous goods by road and sea according to ADR and IMDG.

15. Regulatory information

Hazard designation: It has been assessed that the product shall not be classified as hazardous according to the national classification and labelling rules.

Other labelling

-

Chemical safety assessment

Chemical safety assessment has not been performed.

16. Other information**Restrictions on use**

-

Training requirement

No special training is required, but a thorough knowledge of this safety data sheet should be a prerequisite condition.

Sources used

The supplier's safety data sheets and current legislation.

**Other information**

The safety data sheet is based on EU and national legislation. The user's working conditions are out of our control. The information should be considered as a description of the safety demands put on the product and not as a guarantee of the properties of the product.

Full text of the R-phrases that are stated in section 3.

No R-phrases.
