

TUB O'CARBON
ODORBUSTER
Air Purifiers for Small Spaces

The Original All-Natural Air Freshener!

The most powerful odor-removing material in the world is now available in a convenient compact size!

"...air fresheners are used in nearly 75% of U.S. households, and the market has doubled since 2003 to \$1.72 billion..." Time.com

About activated carbon:

- Used by industry for over 100 years
- 100% Chemical-free
- 100% All-Natural
- The same material used in military gas masks and air purifiers
- Chosen over baking soda by the U.S. Department of Energy for removing tough fridge odors

Carbon is so effective in removing chemicals and odors it's used by:

- Commercial food storage facilities
- Hospitals
- Laboratories
- Oil spill clean-up vessels
- Emergency response personnel
- Combat soldiers

Packaging formats:

- 12 unit counter display box
- Floor display available Jan. 2011
